According to the announcement made by Mrs. I. I. Lorch, chairman of the committee, there are 40,000 orphans in war-stricken Palestine in the need of aid. It is estimated that \$80 a year is all that is necessary to provide for the support of one of the victims.

Furniture of merit bears a subtle expression of hospitality and refinement—an obvious assurance of sensible living and good taste.

Furniture of true beauty and authentic period design is here in widest opportunities for selection. Prices are lower than you'll pay in the near future—and probably lower than you will pay for years to come.
